Subject: Leak

Hi Gordon,

I hope all is well.

Hey, we would like you to come and check out a possible leak. We can smell water damage in our lounge which was added on in 2011.

We are worried that the gutter is leaking.

We've also had further damage from the shower in the bathroom. You had a guy pull it apart to check for leak, it wasn't put back together properly and water has been getting into the wall through a hole left under the mixer.

Can you let me know a time you can come and check these out.

Cheers

Shaun
